---

### Full Stack Web Developer

Currently studying in University of Toronto in web development major. I am designing and building personal projects and contributing to open source along with attending university. I have extensive experience in building web applications, mainly in JavaScript. I enjoy designing UIs in Sketch and then building the front-end as well as all the APIs and back-end infrastructures for my projects.

GitHub Repository : <https://github.com/ianasqazi>  
Portfolio : <https://ianasqazi.github.io/Portfolio/>

#### Expertise:

- Front-End Web development
- Back-End Web development
- HTML5 / CSS3
- JavaScript
- Node.js
- MERN Stack coding
- Object Oriented Programming

#### Previous Experience: Oracle Database Administrator - (OCP)

- 5 years of experience as an Oracle Consultant and Oracle Database Administrator (DBA).
- Handling production systems for Financial institution along with implementing new tools and applications besides production support attaining 0% downtime.
- Extensive experience in implementing new and supporting existing projects for clients in Banking, Insurance, Manufacturing, Public and IT domain.
- Implemented a total of 6 projects from small to medium scale along with handling daily operations.
- Skilled at Administration, Implementations, Integration, Migration, Consolidations, Upgrades, and Support Oracle tools and databases.
- Expert at tools such as Oracle Applications such as E-Business Suite, WebLogic, Fusion Middleware, Oracle Audit Vault and Firewall, Oracle Database Vault, Oracle Enterprise Manager cloud control etc.
- Self-Motivated team player with leadership qualities, Analytical thinker for problem-solving techniques with excellent communication skills to communicate effectively with higher management.
- Strong verbal and written communication and presentation skills.
- A broad range of cross-functional business, industry and functional knowledge to integrate technical solutions with business requirements.

#### CORE ORACLE COMPETENCIES

- 24x7 Production database administration, support and monitoring to ensure there are no unplanned downtime of system.
- Proficiency in installation, configuration, upgrading, administering and troubleshooting of
  - OS - Linux 5/6/7, HP-UX 11.3 and Solaris 9/10/11.
  - Oracle RAC Database systems / versions 10g/11g/12c on Production, Pre – Production, Development and Testing Servers.
  - Oracle Data Guard (Physical / Logical / Snapshot Standby Database)
  - Oracle Golden Gate
  - Oracle E-Business Suite-11i, R12 (Application + Database).
  - Oracle Enterprise Manager for performance monitoring.
  - Oracle Automatic Storage Management system (ASM).
  - Storage Area Networks (SAN)
  - RAID Levels configuration on storage (Hypervisor Level).
- Experienced in scripting SQL/PL tuning query/queries as part of performance tuning.
- Experienced in cross platform Database Migrations.
- Hands-On in periodic Backup and recovery (both method RMAN and User Managed)
- Scheduling jobs for backup and monitoring processes using crontab in Linux/Unix.
- Hands-On in Database Upgradation (Stand alone as well as EBS database).

- Exporting & Importing complete Database using EXP/IMP Utility as well as EXPDP/IMPDP (DATAPUMP).
- Well Experienced in Patching using Opatch, ADOP and BSU utility to upgrade system performance and implement the new releases.
- Experienced in Cloning, Capacity Planning, Space Management.
- Refresh non-production databases from Production databases using RMAN backups or third-party tools like HP Data Protector, Veritas backups etc.
- Experienced in Performance tuning for optimized results using tools like AWR/ADDM/ASH reports and Oracle Enterprise Manager 12c Cloud Console.
- Well experienced in Real Application Testing (RAT) using Enterprise Manager 12/13c.
- Experience in SUN, ORACLE, HP, DELL & EMC hardware.

## **PROFESSIONAL EXPERIENCE**

---

**Sr. Database Administrator (Sr. DBA)**  
**Bank Muscat**

**JAN 2017 – MAR 2019**

### **RESPONSIBILITIES:**

- Daily database administration operations.
- Implementing new tools and applications for in-house support.
- Applying new regulations and maintaining banking standards.
- Managing 3 production and 9 non-production databases.
- Maintaining integrity in between database, application, network and external payment gateways like SWIFT/SADAD/SARIE.
- Archiving historical data in warehouse.

### **PROJECTS:**

1. Implementation of Value Added Tax (VAT)
2. Implementation of PRTG Network Monitoring tool.

**Oracle Consultant & Implementation Specialist**  
**Progress Ways**

**JUL 2014 - JAN 2017**

### **PROJECTS:**

1. Implementation of Audit Vault and Database Firewall (AVDF) provided by Oracle.
2. Implementation of Oracle Database Vault (DBV) provided by Oracle.
3. Oracle E-Business Suite Upgrade from version 12.1 to 12.2
4. Enterprise Upgrade Infrastructure
  - Requirement gathering and phases planning.
  - Preparing Testing/Development/Pre-production environments.
  - Installed the OS, Database, OS patches, Database Patches, Upgrade patches.
  - Removing redundant data (cleaning/archival) for database optimization.
  - Consolidation of multiple smaller tablespaces as well as databases for optimization.
  - Upgraded 3 single-node databases from legacy 9i/10g to 11gR2/12c HA (RAC) Database.
  - Configured Physical Standby Disaster Recovery (DR) site.
  - Migration of Servers from old data center to new data center.
  - Installed Oracle Enterprise Manager 13c for automation of tasks using graphical interface.
  - Complete Documentation starting from Technical Proposals, Scope of Work, Stake Holders Document, Kick-off presentation, Minutes of Meeting, Communication Plan, Project Plans, Test Scripts, Training Materials, Status Reports, database design, technical hand overs.

## **EDUCATION & CERTIFICATION**

---

2019-2020	<b>Web Development Coding Boot Camp</b>	University of Toronto, Canada
2009 - 2013	<b>Bachelor's in Computer Engineering</b>	University of Mumbai, India
2014	<b>Oracle Database SQL Certified Expert</b>	Oracle
2014	<b>Oracle PL/SQL Developer Certified Associate</b>	Oracle
2014	<b>Oracle Certified Professional (OCP – DBA)</b>	Oracle
