- Regular participant and organizer of local university Hackathons and web developer meetups.
- Self-Motivated team player with leadership qualities, Analytical thinker for problem-solving techniques with excellent communication skills to communicate effectively with higher management.
- Strong verbal and written communication and presentation skills.
- A broad range of cross-functional business, industry and functional knowledge to integrate technical solutions with business requirements.
- Extensive experience in implementing new and supporting existing projects for clients in Banking, Insurance, Manufacturing, Public and IT domain.
- Skilled at Administration, Implementations, Integration, Migration, Consolidations, Upgrades, and Support Oracle tools and databases.

VOLUNTEERING EXPERIENCE

Volunteering with [HackerNest Toronto](#) for Tech Social TO Meetup

Notoriously down-to-earth tech gatherings for developers and other technologists to share wisdom and bad puns over friendly drinks. Nonprofit and agenda-free, we unite the city's tech and innovation community.

Volunteering with [NSBE Hacks](#) - [University of Toronto](#)

NSBE Hacks is the first university student-run black hackathon in the GTA. It is a 24-hour fun-filled hackathon hosted by the National Society of Black Engineers UofT Chapter.

Volunteering with [UTSU](#) in UFest Orientation - [University of Toronto](#)

- Preparation of events for the orientation week for newcomers.
- Starter kits segregation and counts for distributions.

WORKING EXPERIENCE

Oracle Consultant & Database Administrator

- In my previous career, I was an Oracle Consultant for 5 years implementing a variety of Oracle tools alongside database administration for clients in different sectors.
- Extensive experience in implementing new and supporting existing projects for clients in Banking, Insurance, Manufacturing, Public and IT domain.
- Expert at tools such as Oracle Applications such as E-Business Suite, WebLogic, Fusion Middleware, Oracle Audit Vault and Firewall, Oracle Database Vault, Oracle Enterprise Manager cloud control etc.
