---

- Full Stack Web Developer with 5 years of experience in IT industry. Skilled at developing responsive web applications using MERN Stack, React-Native, jQuery, Bootstrap and other NPM libraries.
- Regularly participated and volunteered at university Hackathons and web enthusiast Meetups.
- Emergency First Aid, CPR/AED – Level C certified from Canadian Red Cross.
- A broad range of cross-functional business, industry and functional knowledge to integrate technical solutions with business requirements.
- Strong verbal and written communication and presentation skills.
- Extensive experience in implementing new and supporting existing projects for clients in Banking, Insurance, Manufacturing, Public and IT domain.

## VOLUNTEERING EXPERIENCE

[HackerNest Toronto](#) for Tech Social TO Meetup

Notoriously down-to-earth tech gatherings for developers and other technologists to share wisdom and bad puns over friendly drinks. Nonprofit and agenda-free, we unite the city's tech and innovation community.

[NSBE](#) Hacks - University of Toronto

NSBE Hacks is the first university student-run black hackathon in the GTA. It is a 24-hour fun-filled hackathon hosted by the National Society of Black Engineers UofT Chapter.

[UTSU](#) in UFest Orientation - University of Toronto

A day filled with music, performances, food trucks, exhibitor booths, and hundreds of amazing clubs that you can get involved. The Street Fest makes a great space to explore what your campus has to offer. Prepared starter kits for distribution and organizing the ground for the day of events.

## WORKING EXPERIENCE

Full Stack Web Developer

- Concepting, creating and building websites alongside our graphic design team, including taking designer wireframes and magically turning them into effective code.
